

My family and I listen only to K-LOVE FM, a listener-supported Christian radio station. K-LOVE is a relaxing, conservative, uplifting, and supportive radio station and that we are proud to sponsor. Expanding the LPFM service would adversely affect K-LOVE and other stations like it, thus diminishing its pro-family broadcast to our community. Over this past year, the K-LOVE staff have taken literally thousands of phone calls from people that are desperate. These ranged from domestic issues to people contemplating suicide. I encourage the FCC to reconsider the LPFM expansion and the negative impact it would have on communities all over America.
